Mission: To strengthen the research portfolios of tenure-line and career-line faculty by providing them with resources to help make more time in their schedules for research. For career-line faculty in particular, the grant’s mission is to build the research portfolio as a form of professional development that strengthens teaching.

The College of Fine Arts Make-Time-for-Research Grant is given on a competitive basis to support faculty research. This grant recognizes that we often say, "If I only had more time in the day, I could complete my research project!" Thus, applicants are invited to think creatively about how to generate time in order to conduct their research. Joint or group proposals will be accepted.

Maximum Award: $2000

Criteria: Proposals will be evaluated based on...

- the quality of the research projects;
- specific, realistic, and meaningful plans for "making time";
- likelihood that the grant will help applicant(s) make significant progress on their research;
- and, for career-line faculty, evidence that progress on research will have a direct and positive impact on teaching.
- NOTE: Preference will be given to applicants who will complete a research project as a result of the grant, and/or who have a formal/tenure/promotion RPT review in the near future (tenure-line faculty).

CFA Submission Deadlines: Fall Cycle, November 15; Spring Cycle, February 26.
Eligibility

- Tenured and tenure-line faculty members; career-line faculty with at least a 0.50 FTE
- Proposals must not be eligible for other CFA grants (Faculty Research Grant, Research-in-Progress Grant, etc.)
- Proposals must be in alignment with University Funding Guidelines, refer to the guidelines for expenses that are excluded from University funding
- Candidates who have previously received a CFA Make-Time-for-Research Grant are not eligible to re-apply until they have submitted their final report

Process:

- **Craft your proposal**: Prepare your proposal using the template and cover sheet included at the end of this document.

- **Chair/Director Letter of Support**: Solicit a short, signed letter of support from the Chair/Director of your department/school. *(You must have an electronic version of this document in order to submit your proposal through InfoReady.)* Be sure that your Chair/Director is aware of the deadline for submission to the CFA.
  
  **NOTE FOR CHAIRS/DIRECTORS**: The letter should evaluate the quality of the research project proposed, as well as the likelihood that the plan for "making time" will be effective for the particular applicant(s). In addition, the Chair/Director should consider all the grant and leave applications that their faculty are submitting each cycle/year—both inside and outside the College—in order to determine whether Department/School responsibilities will be adequately covered if all the applications are successful.

- **Submit the CFA Grant Proposal**: All application materials for the CFA Make-Time-for-Research Grant must be submitted via InfoReady. You will be required to upload two PDF documents: the grant proposal and the chair/director letter of support. A direct link to the InfoReady application is listed on the CFA website. Deadlines: Fall Cycle, November 15; Spring Cycle, February 26.

- **Notification**: All proposals will be reviewed by the CFA Grants Committee, and the committee will make recommendations to the Dean. All applicants will receive notice of the decision regarding their proposals.

- **Final Report**: Recipients of CFA Faculty Research Grants must submit a final report with the Dean's Office by June 30 of the following academic year.

*Applicants are welcome to consult with Associate Dean for Faculty & Academic Affairs, Melonie Murray (Melonie.murray@utah.edu), as they prepare their applications.*
CFA Make-Time-for-Research Grant
Application Guidelines

One electronic copy (PDF) of the application must be submitted through InfoReady by 5:00 PM on November 15 or February 26.

1. Cover page
2. 1,000-word (approximately 2 single-spaced pages) description
3. Short Form CV (3 pages) for each applicant
4. Detailed budget with justification for each item
5. Letter(s) of support from Chair(s)/Director(s)

1. Cover Page
   Prepare a cover page. (A cover page template is included at the end of this document.)

2. 1,000-Word Description
   Joint/group applicants should keep the entire description within the 1,000-word limit.
   
   **A.** Describe how the resources you are requesting through this grant will help you "make time," and how that time will directly benefit your proposed research project. Applicants are encouraged to think creatively and realistically. You may request any resources that would help you "make time," within University guidelines. Keep in mind that the resources should be directed toward creating time, not toward the project itself. If applicants would like resources for the project itself, they should consider applying for a Faculty Research Grant. If applicants have already secured funds for the project itself, briefly describe the purpose and source of those funds.

   **B.** Describe the faculty research project, including how this project relates to your overall research agenda. Identify a specific research question or a clear objective, as well as a justification for the project. In addition, include a concise description of methods to be used. Please make clear how these methods will help you answer your research question or lead to the project objectives. Include peer-reviewed dissemination plans for the research. If relevant, make clear why completion of this project is important to your upcoming formal/tenure/promotion RPT review (tenure-line faculty) or how this project will have a direct and positive impact on your teaching (career-line faculty).

3. Vita
   Provide a short form CV (a maximum of three pages).
4. **Budget**

Funds may be requested for any **University allowable expense** that will help applicants create time. The maximum amount of funds applicants can request is $2,000; the amount requested should be directly relevant for the mission of the grant: "making time." The primary criterion in evaluating the amount of funds requested is that the resource is reasonable and that the explanation in the Project Description (#2 above) makes clear why that resource is necessary. Resources that could benefit both the applicant(s) and others within the CFA are a plus but are not required.

**Note:** Equipment - Enter dollar amounts of requested funds. While equipment requests are unlikely, if they are necessary they should be itemized. Because of limited funds available, requests for equipment should be made only after a conscientious search has been conducted to determine whether this equipment is already on campus and available through a loan or share arrangement. If the budget includes equipment, identify which department or school will own and manage the property upon completion of the grant.

**Updated Travel Fees** – The University has implemented new travel audit fees based on the updated U Travel reimbursement system. Please keep these fees in mind as you build your budget and include them as a line item. The new fees are as follows: Driving - $15, Domestic Flight - $25, & International Flight - $35.

**Updated International Travel Policy** – Per University Rule R3-030D, all international travel participants must: **Register** their University-related travel at least 3 weeks prior to departure date, **Enroll** in University-affiliated international and emergency evacuation insurance, **Abide** by all active travel warnings and restrictions. Failure to do so will result in no reimbursement of travel related expenses and, in some cases, university disciplinary action. Contact your departmental business officer to help with international travel registration.

5. **Chairs/Director's Letters of Support**

A short letter of support from the Chair(s)/Director(s) of the Department(s)/School(s) must be included.

**Note:** The letter should evaluate the quality of the research project proposed, as well as the likelihood that the plan for "making time" will be effective for the particular applicant(s). In addition, the Chair/Director should consider all the grant and leave applications that their faculty are submitting each cycle/year—both inside and outside the College—in order to determine whether Department/School responsibilities will be adequately covered if all the applications are successful.
Date: ________________________________

Name: ________________________________ E-mail: ________________________________

Title: ________________________________ Department/School: ______________________

Please select one: Tenure-Line or Career-Line

Total Budget Requested: _________________________________________________________

Research Project Title: __________________________________________________________

Expected Date of Completion: ____________________________________________________

ABSTRACT
1-3 sentences each describing (1) the research project and (2) how you will "make time."
